

Skill Test

Use the following library: <https://konvajs.org/> to create a canvas using React.

Pages:

1. Must have –

- a. Add an image on the canvas, BONUS - image should be resizable.
- b. Create a button, on-click add/remove text on the canvas[single button for both], BONUS - text should be resizable.
- c. Add a video on the canvas. Also, add a button to play/pause the video and add a separate button to stop the video.
- d. Add Buttons to move the text to the top, down, left and right to the canvas on click.

Note [IMPORTANT]:

1. Must use ReactJS
2. Work on CodeSandbox or on your local machine
 - a. If working on local machine create a repository on Github and upload your code to the same
 - b. Once the test is complete share the CodeSandbox Link or the Github repository link
